4 WORLD MISSIONS DAY

Executive Director, Dr. John David Smith, explains the “Changemaker” concept that drives the ministry of BMA Missions. The “sender” and “sent” relationship between Paul and Titus gives a great biblical application of this ministry paradigm.

40 LEADERSHIP

World Missions Day is February 23! We encourage you to use this “prayer calendar” issue all year long as you pray specifically for missionaries around the world. We offer a slightly new twist as some of the American missionaries will spotlight and tell the story of a “ChangeMaker” missionary from the field where they minister. ChangeMakers are those partners who have been won to Christ, disciplined, and trained by missionaries sent by the Baptist Missionary Association (BMA) through the years, and they continue to live and minister in their respective countries.

We believe that our partnerships with ChangeMaker missionaries reflect biblical principles from the early missionaries on how they carried out the command of Christ to go to the nations. Here are a few of those lessons from the relationship between Paul and Titus.

Among New Testament personalities, Titus is not the most well-known. However, his life and ministry afford us a great window into the relationship between the missionary that was sent and the “ChangeMaker” who was developed for and released into ministry.

- 1) We know that this relationship was a cross-cultural relationship. Paul was a “Hebrew of Hebrews” (Philippians 3:5) and yet a Roman citizen also. Titus was a Gentile.
- 2) We believe that Paul won Titus to Christ (Titus 1:4).
- 3) We know that Titus was with Paul at Jerusalem for the council that debated on whether or not Gentiles had to be circumcised. Paul tells us in Galatians 2:3 that Titus was not circumcised; therefore, he is a great example of how Gentiles came to Christ.
- 4) We know from various passages that Titus served in Corinth on more than one occasion.
- 5) We know that Paul left Titus on the island of Crete to tie up loose ends and to appoint elders in all the cities where there were new churches (Titus 1).
- 6) Later, in II Timothy 4:10, we see that Titus was sent to the region of Dalmatia (modern day Serbia/Montenegro) to minister. In reality it seems that Titus was dispatched to some of the most difficult ministry contexts in the New Testament.

From Paul, we learn his unrelenting commitment to making disciple makers, developing leaders, and releasing them to do the work of ministry. All of these elements have to be present for missionaries to produce “ChangeMakers.”

From Titus’ perspective, we know that he was evangelized, equipped, encouraged, and empowered to do the work of ministry and missions. We rejoice in the hundreds of Paul/Titus-like partnerships around the globe that define the reach of BMA Global Missions. When you support BMA Missions, you are investing in these partnerships that result in many more disciples, leaders, and churches.

- A little over five years ago, I accompanied our very first missionary to Ecuador and helped him find the town where he was to plant the first BMA church in that country. For the next two years Brother Trevor Morris planted the church in Cuenca, Ecuador. He returned to the States and later lost his life in a plane crash. The work continued and has struggled for the past three years. We have continued to work with our leader, Brother Marco Tamay; and Taffy and I have committed to move to Ecuador and dedicate at least one year to helping lead the church toward becoming organized as the first BMA church in Ecuador. We will be moving in the summer of 2020 and desperately request your prayers as God provides our needs.
